GELSYN-3 (2 mL) into your knee for a total of three weekly
treatments, but you should also be aware that GELSYN-3 should not
be administered to patients who:

- Do not understand this information or want to
- Have an allergy to GELSYN-3 or if you have any other problems, you should call
- Do not have a diagnosis of OA, or if you have a mediadors disease (e.g., RA, lupus, pemphigus erythematosus)
- Have a history of allergy to hialuronate, or have ever had an allergic reaction to GELSYN-3
- Are pregnant or breastfeeding. GELSYN-3 is not recommended for use during pregnancy and breastfeeding.
- Are breastfed.
- Are under 21 years of age.
- Have had an allergic reaction to hialuronate.
- Are currently using other treatments for OA that may cause harm to your health, such as
- Are receiving corticosteroids or other immunosuppressive drugs
- Are allergic to GELSYN-3.
- Are using any medications that may cause harm to your health.

PATIENT INFORMATION

WHAT IS GELSYN-3?

GELSYN-3 is provided in a 2.25 mL glass syringe (half a teaspoon) that contains 2.1 mL of solution. The contents of the syringe are sterile and are injected directly into the knee, which helps to reduce the pain and swelling of the joint.

HOW IS GELSYN-3 GIVEN?

GELSYN-3 is given by injection to the knee. The injection is performed by a healthcare professional.

WHAT OTHER TREATMENTS ARE AVAILABLE FOR OA?

There are several other treatments available for OA, including:

- Non-steroidal anti-inflammatory drugs (NSAIDs)
- Corticosteroids
- Physical therapy
- Exercise
- Radiation therapy
- Interferon therapy

WHAT ARE THE POTENTIAL BENEFITS OF GELSYN-3?

Studies have shown that GELSYN-3 may provide relief from OA symptoms for up to 12 months. The potential benefits of GELSYN-3 include:

- Reduced pain
- Improved mobility
- Increased range of motion
- Reduced inflammation

HOW DO I GET MORE INFORMATION ABOUT GELSYN-3?

If you have any questions about GELSYN-3, you can call 1-800-836-4080 (toll free) or visit the website.

WHAT IS GELSYN-3 USED FOR?

GELSYN-3 is used to help relieve pain and swelling in the knee joint caused by OA.

WHAT IS GELSYN-3?

GELSYN-3 is a hyaluronan-based injectable product that is used to help relieve pain and swelling in the knee joint caused by OA.

WHAT IS THE POSSIBLE SIDE EFFECTS?

Some possible side effects of GELSYN-3 include:

- Injection site reactions (e.g., pain, redness, swelling)
- Temporary joint pain
- Temporary swelling

WHAT ARE THE POSSIBLE BENEFITS OF GELSYN-3?

Studies have shown that GELSYN-3 may provide relief from OA symptoms for up to 12 months. The potential benefits of GELSYN-3 include:

- Reduced pain
- Improved mobility
- Increased range of motion
- Reduced inflammation

WHAT ARE THE POTENTIAL BENEFITS OF GELSYN-3?

Studies have shown that GELSYN-3 may provide relief from OA symptoms for up to 12 months. The potential benefits of GELSYN-3 include:

- Reduced pain
- Improved mobility
- Increased range of motion
- Reduced inflammation

WHAT ARE THE EFFECTS OF GELSYN-3 ON THE BODY?

GELSYN-3 is a hyaluronan-based injectable product that is used to help relieve pain and swelling in the knee joint caused by OA. GELSYN-3 is safe and effective when used as directed. However, it’s important to remember that GELSYN-3 is not a cure for OA.

HOW DO I USE GELSYN-3?

GELSYN-3 is only to be used by a professional who has been properly trained in the injection of GELSYN-3.

WHO SHOULD ADMINISTER GELSYN-3?

GELSYN-3 should be administered by a healthcare professional who has been properly trained in the injection of GELSYN-3.

HOW DO I STORE GELSYN-3?

GELSYN-3 should be stored in the refrigerator at 1-8°C (34-46°F). GELSYN-3 should not be frozen.
